

SAP ABAP Developer (m/f/d)

FULL TIME

Slovakia

We are an international software and consulting company providing SAP solutions in the areas of data management, test automation, system landscape optimization (SLO) and SAP HANA implementations. The company was founded in 1998. DATAVARD currently employs around 220 people and has its headquarters in Heidelberg with offices in Hamburg, Slovakia, Singapore, Switzerland and in the US.

01

JOB DESCRIPTION

What you will do

During your initial training, you will be introduced to our business and product portfolio, after which you will be responsible for development of software tools which support our consulting services and software products delivered to our customers.

Your daily tasks will include:

- End-to-end participation & cooperation with all stakeholders on software delivery life cycle -including analysis, design and creation of data models
- Defining user interfaces with the focus on maximizing usability and user experience
- Creating work packages for other team members & effort estimates
- Supporting customer implementation projects & customer support
- Sharing knowledge within your team as well as across teams

Who you are

You are a professional Software and ABAP Developer who is passionate about SAP and new technologies such as Hadoop, HIVE and in-memory databases. You are keen to develop products and solutions for Big Data management, business transformations, test automation and data analytics.

You are motivated to learn new things and work as a part of a dynamic team

- You have strong analytical and problem-solving skills with ability to translate client business requirements into a detailed functional and technical design documentation
- You have minimum 2 years of professional experience in ABAP development and SAP systems
- You have strong knowledge of DB systems, SQL language, object-oriented programming and UML
- You have good English skills (speaking and writing)

What we offer

- A comprehensive training and onboarding program supplemented by individual and team training opportunities
- Cooperation with technical experts and consultants worldwide
- A future-proof work in an innovative, dynamic and international work environment

Your team

"You will spend a major part of your life at work. At Datavard, your time is well spent. That is why I've been here for more than 10 years."

It's all about people with different views, perspectives and priorities thriving for common goal to develop a world - class solutions."

Milan Gašpar
Manager of Business Transformation Software

Nice to have

- Knowledge of HTML, JavaScript or other web technologies
- Knowledge of SAP BW
- German language skills

02

BENEFITS & APPLICATION

Benefits

- Attractive compensation package
- Flexible working hours and home office allow you to combine work and free time
- Worldwide health insurance coverage for yourself and your family
- Language training and other advanced training opportunities
- The company pension scheme closes your pension gap at old age

How to apply

Send your CV in English or German to jobs@datavard.com. If your profile meets our requirements, we will get in touch with you soon.
