

SENIOR SAP ABAP Developer (m/f/d)

🕒 FULL TIME

📍 Slovakia

We are an international software and consulting company providing SAP solutions in the areas of data management, test automation, system landscape optimization (SLO) and SAP HANA implementations. The company was founded in 1998. DATAVARD currently employs around 220 people and has its headquarters in Heidelberg with offices in Hamburg, Slovakia, Singapore, Switzerland and in the US.

01

JOB DESCRIPTION

What you will do

During your initial training, you will be introduced to our business and product portfolio, after which you will be responsible for development of software tools in the BW and BO area and specifically for product covering operation monitoring, analytics (DATAVARD Insights) which support our consulting services and software products delivered to our customers.

You are not just 'any' coder but you are THE DEVELOPER and your daily tasks will include:

- End-to-end participation & cooperation with all stakeholders on software delivery life cycle -including analysis, design and creation of data models
- Creative thinking aimed at maximizing usability of the product(s)
- Creation of work packages for other team members & effort estimates
- Support on customer implementation projects & customer support
- Active participation in knowledge sharing within your team as well as across teams

Who you are

You are a professional Software Developer who is passionate about back-end development. You not only deliver solutions according specifications but you participate on their creation, too. You are keen to work with SAP as well as new technologies such as Hadoop, HIVE, in-memory databases. You will develop products and solutions in the area of Big Data management, business transformations, test automation, data analytics, along with Artificial Intelligence (AI), machine learning and anomaly detection.

- You have positive mindset, you enjoy working in a team and you do not follow trends, you set new trends
- You have 3+ years of experience in a development position
- You have good knowledge of DB systems, SQL language, object-oriented programming and UML
- You have good knowledge of ABAP programming language and OData
- You have good English skills (speaking and writing)

What we offer

- A comprehensive training and onboarding program supplemented by individual and team training opportunities
- Cooperation with technical experts and consultants worldwide
- A future-proof work in an innovative, dynamic and international work environment

Your team

"You will spend a major part of your life at work. At Datavard, your time is well spent. That is why I've been here for more than 10 years

It's all about people, with different views, perspectives and priorities thriving for common goal to develop a world - class solutions."

Milan Gašpar
Manager of Business Transformation Software

Nice to have

- Knowledge of SAP BW, SAP BO and SAP Fiori plus Java, HTML, JavaScript, Node.js or other web technologies
- Understanding of cloud development, development using Microsoft Azure service and experience with SCRUM / Agile methodology
- German language is beneficial

02

BENEFITS & APPLICATION

Benefits

- Attractive compensation package
- Flexible working hours and home office allow you to combine work and free time
- Worldwide health insurance coverage for yourself and your family
- Language training and other advanced training opportunities
- The company pension scheme closes your pension gap at old age

How to apply

Send your CV in English or German to jobs@datavard.com. If your profile meets our requirements, we will get in touch with you soon.

"Looking forward to meeting you soon!"
