

SENIOR SAP S/4HANA DATA TRANSFORMATION SOLUTION ARCHITECT (m/f/d)

FULL TIME

Singapore - USA - Europe

We are an international software and consulting company providing SAP solutions in the areas of data management, test automation, system landscape optimization (SLO) and SAP HANA implementations. The company was founded in 1998. DATAVARD currently employs around 220 people and has its headquarters in Heidelberg with offices in Hamburg, Slovakia, Singapore, Switzerland and in the US.

01

JOB DESCRIPTION

What you will do

As a member of our internationally operating consulting team you will work closely with our customers all over APJ, Europe and North America in the acquisition and realization of data transformation projects.

Typical tasks will be:

- Conduct holistic analyses and feasibility studies for complex data transformation projects in SAP system landscapes
- Facilitating and leading customer workshops to identify and present the best approach to meet customers' requirements
- Design and implement technical concepts for mergers & acquisitions, carve-outs & divestitures or in the context of reorganizations at SAP system and data level
- Project implementation using our standard Datavard Transformation software
- Coordination of migration projects remotely and onsite, delivered with distributed teams
- Coaching of junior colleagues on functional, technical, and methodological subjects

Who you are

- Completed studies (e.g. information technology, engineering, business administration, economics, computer sciences) or equivalent work experience
- Minimum 8-10 years of experience in a Specialist or Senior position in a SAP environment
- Expertise in delivering data migration and data transformation projects using SAP data migration tools (e.g. SAP LT, LSMW, Batch Input) is a must
- Proven track record in customer facing consulting (min. 5 years), preferred working experience with the SAP FI/CO module
- ERP data model architecture and ABAP Programming technical skills
- Experience in leading virtual teams cross-border
- Ability to drive execution within area of responsibility and experience in aligning cross-topic objectives & approaches
- Experience in decision making within own area of responsibility
- Ambition to improve and develop your own functional (SAP applications, business processes) and technical skills
- Fluent in English
- Very good communication/ presentation skills

Your team

"Join our diverse and highly skilled team to support our customers in the most vibrant and fastest growing market in the world."

Ulf Spies
Managing Director APJ

Nice to have

- Solid knowledge of SAP LT or SAP SLO is desirable
- Knowledge of other languages would be an asset

What we offer

- Attractive compensation package
- Flexible working hours and home office allow you to combine work and free time
- World wide team events and the possibility to travel abroad
- Working with technical experts and consultants worldwide
- Innovative and dynamic international environment
- Exciting challenges and personal development opportunities
- A future-proof workplace in an innovative, dynamic and international working environment
